Green Space Index

A barometer of publicly accessible parks and green space provision

GREEN SPACE INDEX HEADLINE FINDINGS

215k

hectares

of total green space
provision in Great Britain

32.94

square metres

of green space provision
per person in Great Britain

2.69m

people

in Great Britain not living within a
ten-minute walk of a green space

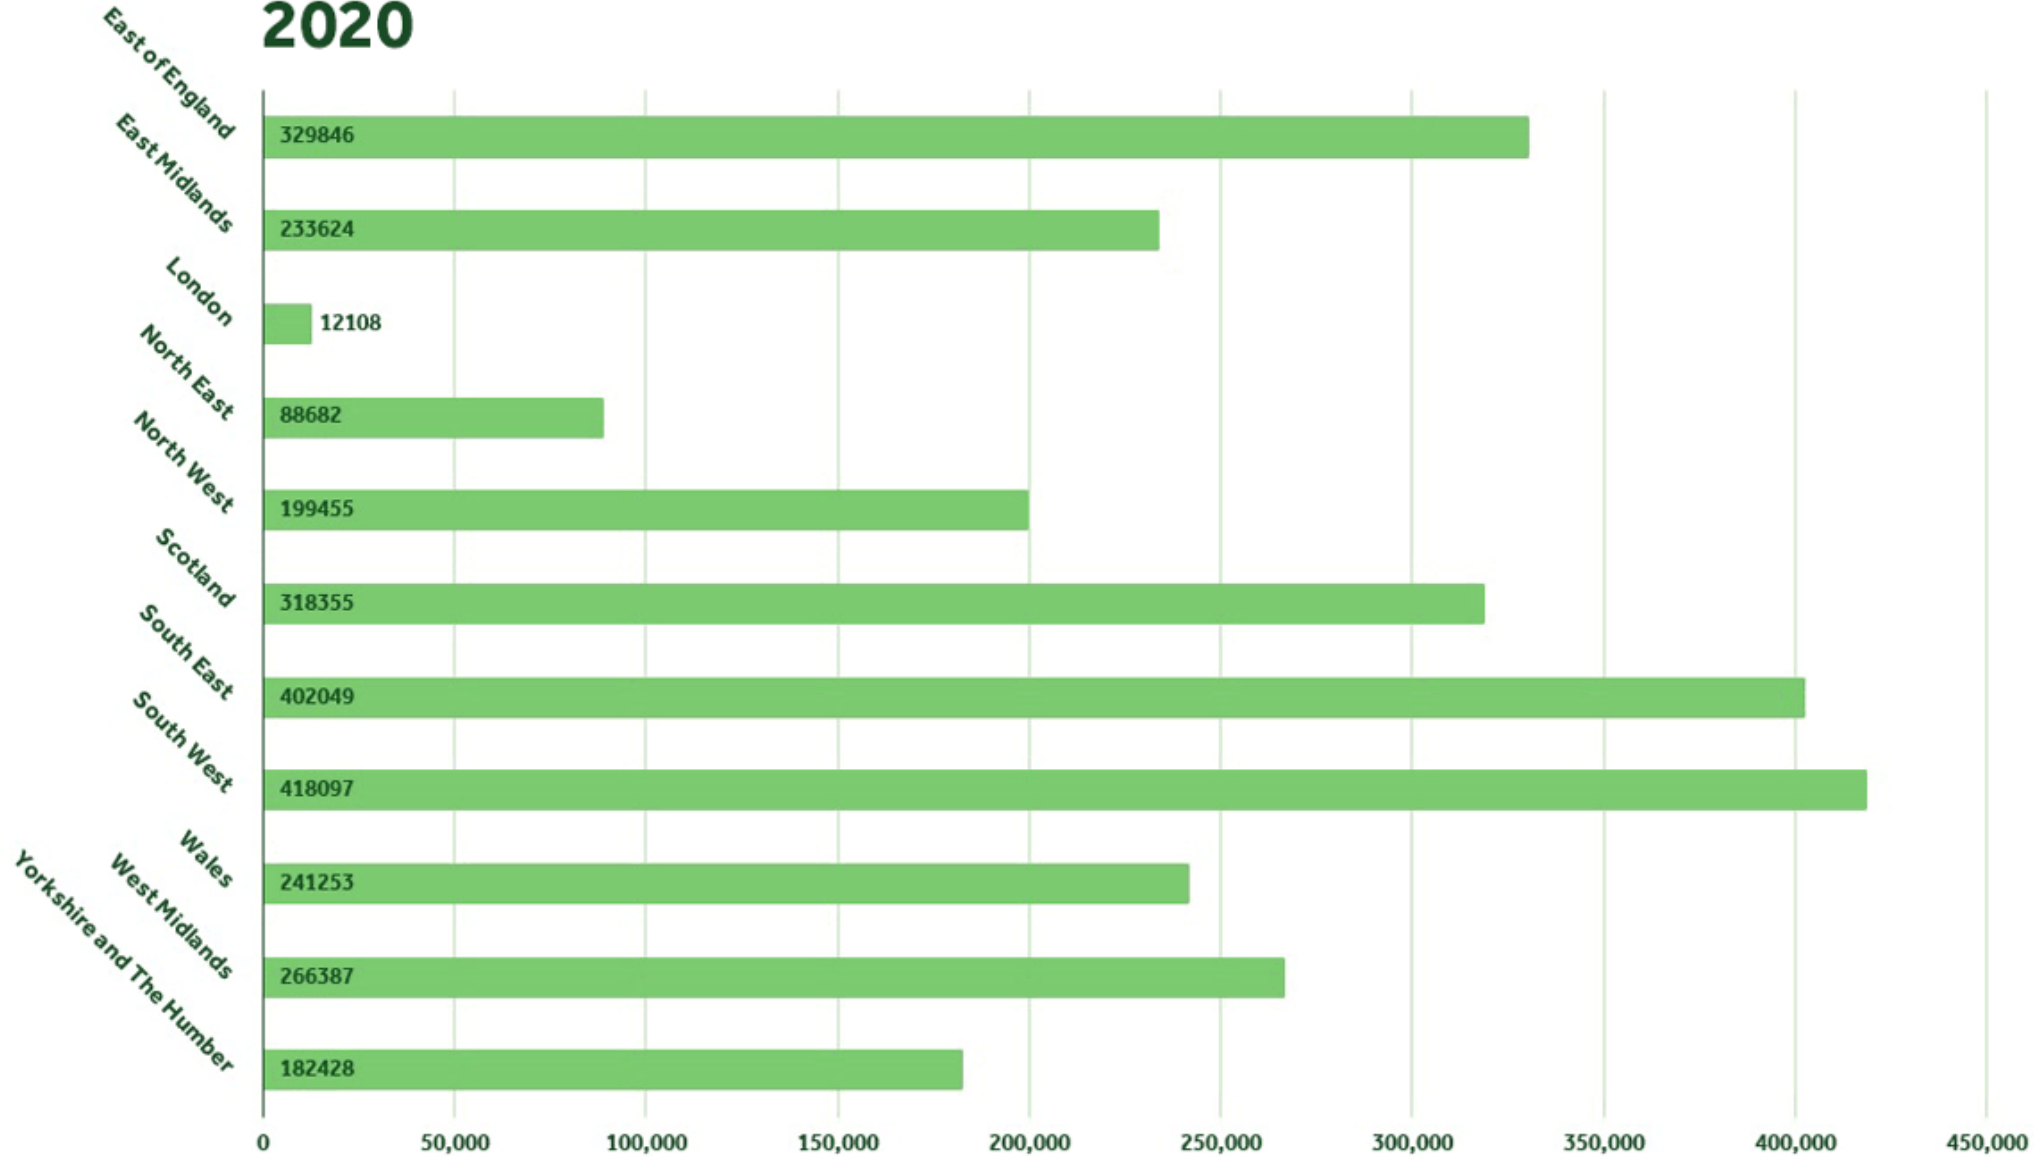

12.7k

hectares

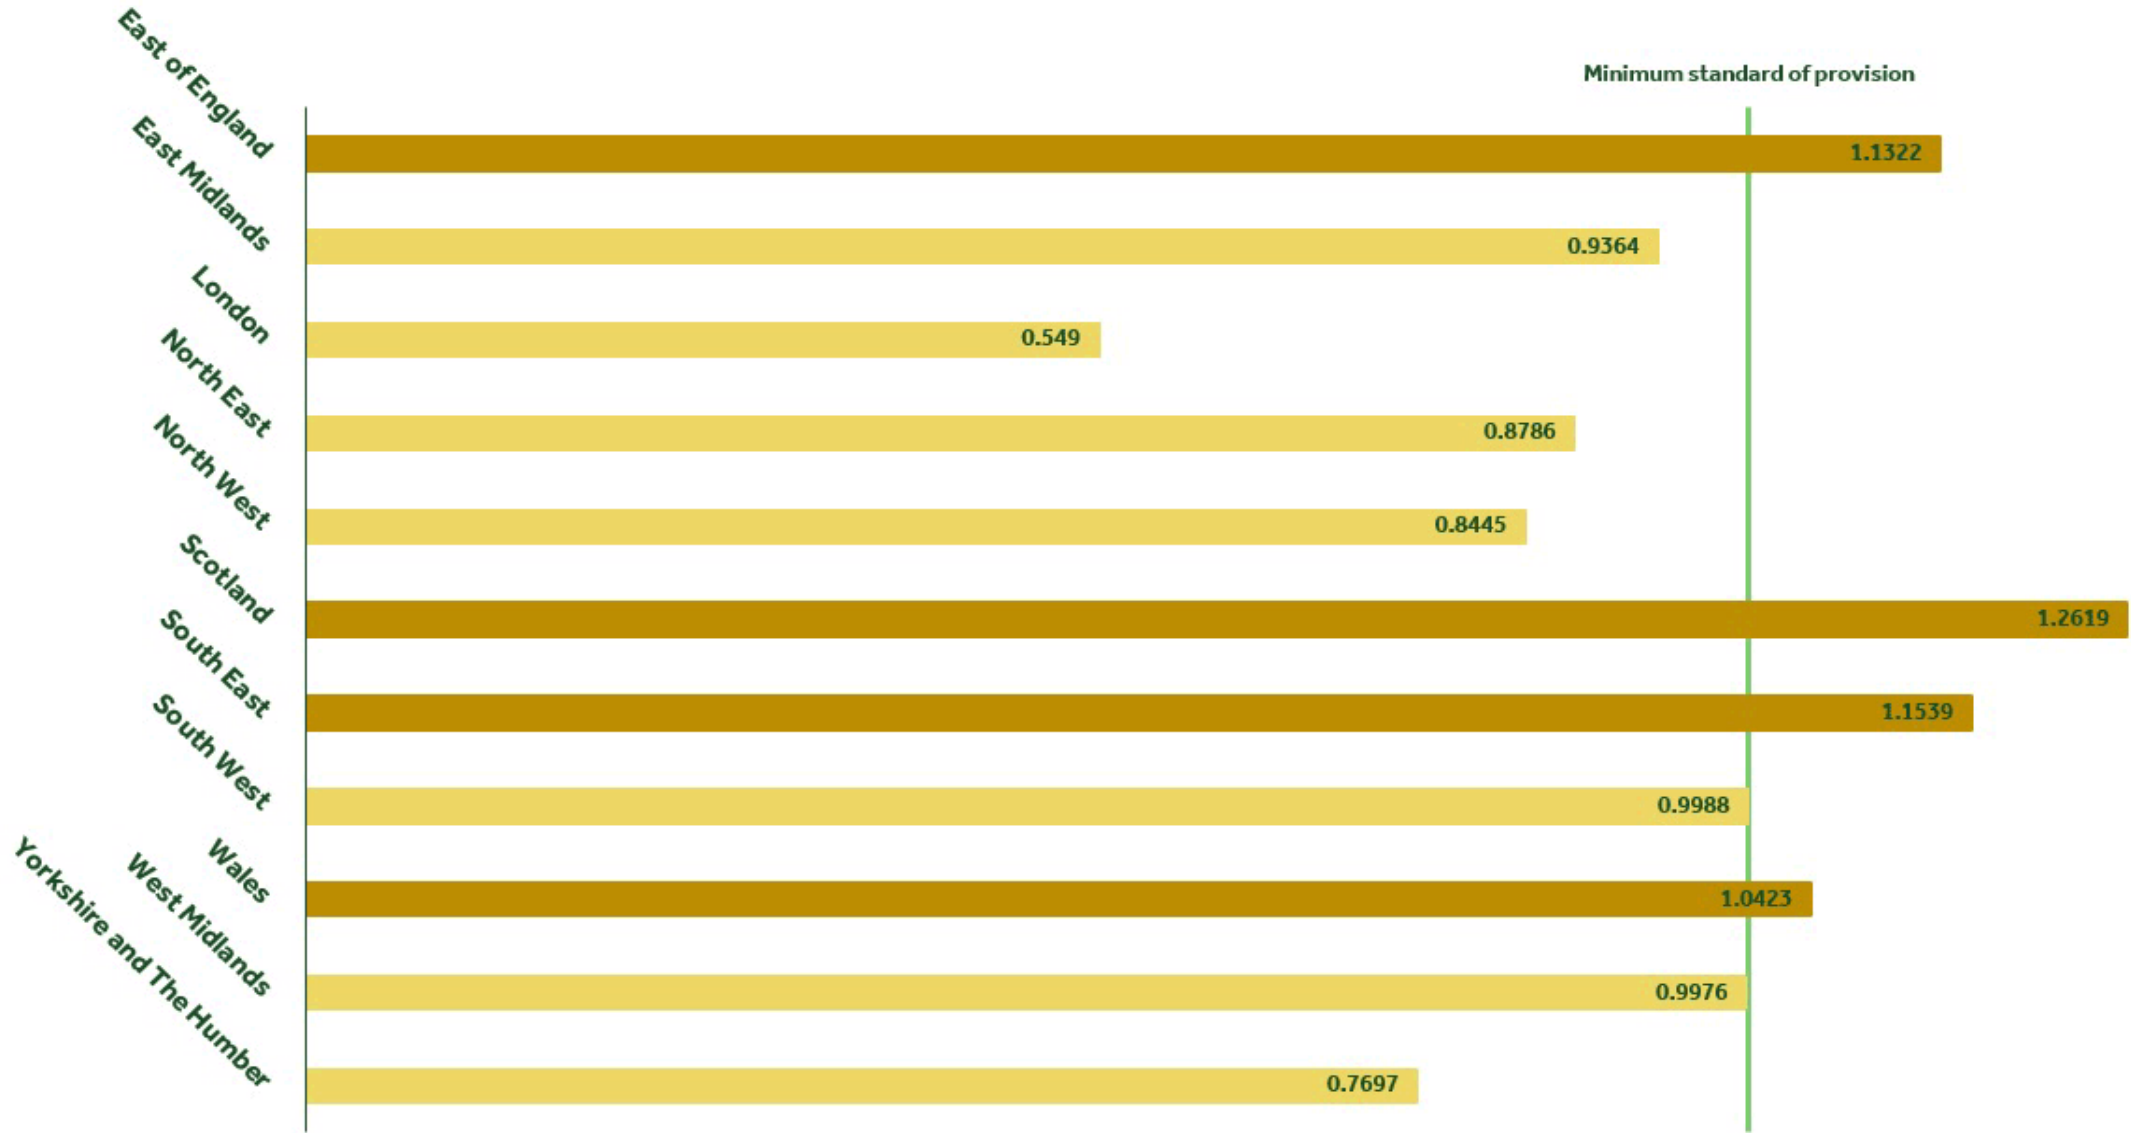

of legally protected green
space provision in Great Britain

POPULATION NOT WITHIN A TEN-MINUTE WALK

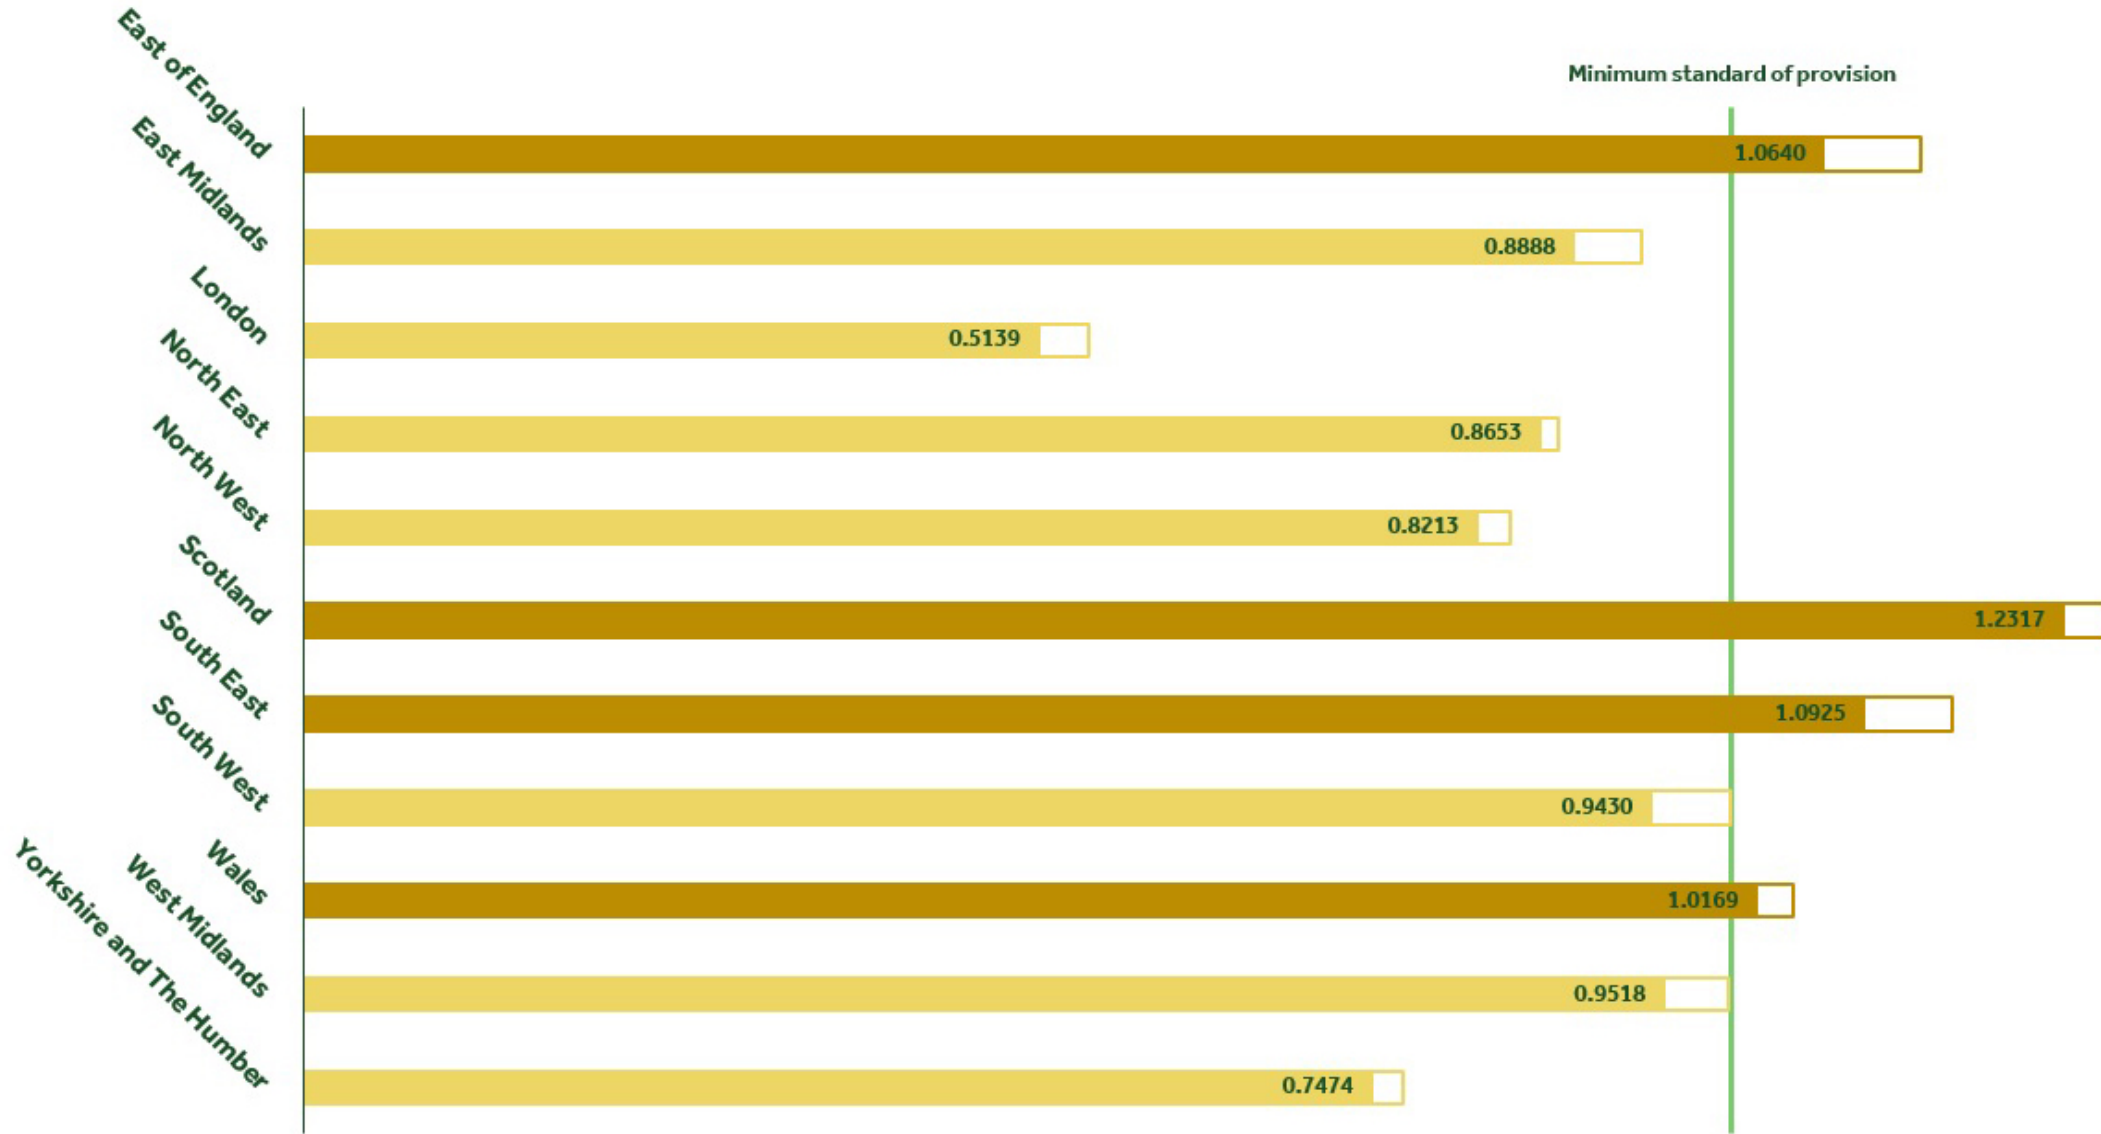

2020

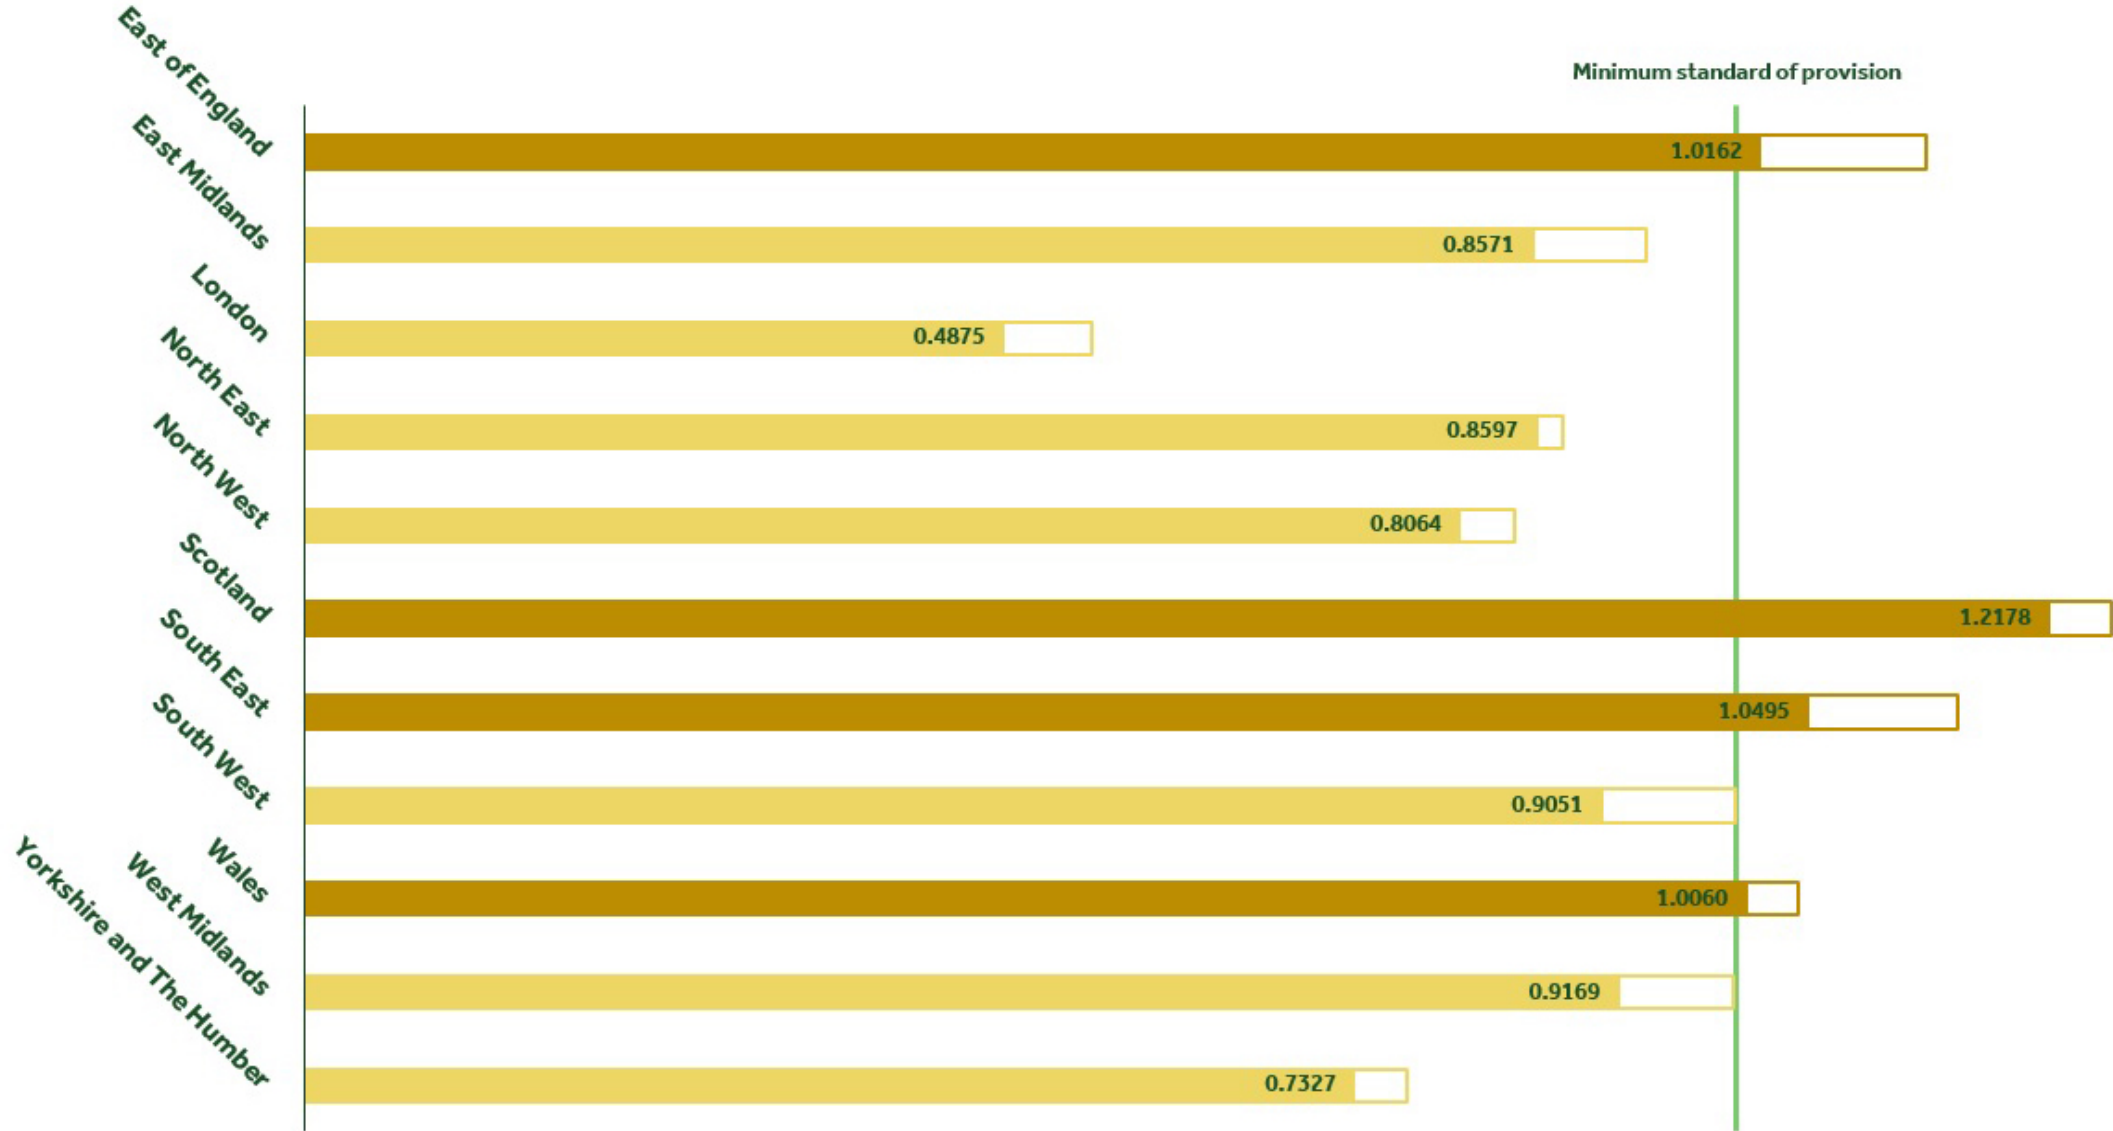

GREEN SPACE INDEX SCORE - 2020

GREEN SPACE INDEX SCORE - 2030

GREEN SPACE INDEX SCORE - 2040

VALUE OF PARKS AND GREEN SPACES

- » Frequent use of parks and green spaces generates £34.2 billion of wellbeing value every year.
- » Based on a reduction in GP visits alone parks and green spaces save the NHS £111m per year.
- » Lower-socio economic groups & BAME communities value parks and green spaces double and triple the average (welfare weighted)
