

Air Quality and NBS in Manchester

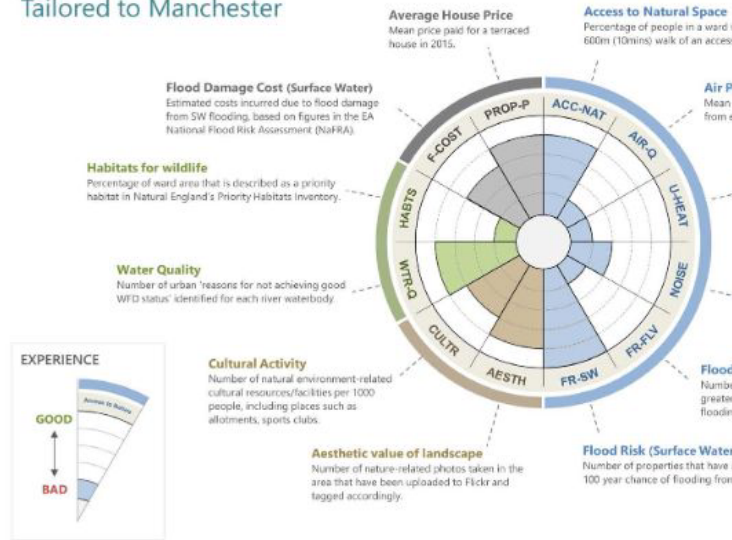

The Nature of Manchester

Modelled air quality baseline – PM_{2.5}

NET-BENEFITS WHEELS Tailored to Manchester

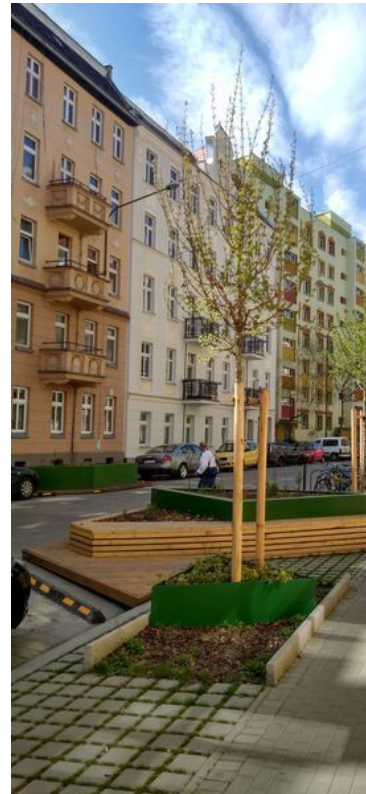

Protecting Playgrounds

GrowGreen

Manchester :
AQ monitoring coincidentally installed!

Wroclaw, Poland
Link explicitly made with PM10, 2.5

In conclusion – next steps

- In order to contribute to air quality improvements, the GI must be installed in the right setting
- Transport and heating solutions will continue to be key air quality improvements

Thank you
